
Professional Experience

- Nov 2024 – **Data Scientist, First-id, Paris**
Ongoing
- Optimized algorithms to improve the cost-performance trade-off, conducted technology watch on web journey identification, and implemented a validation framework for algorithm updates.
 - Performed data analysis on AWS using Athena, DynamoDB, S3, and EC2.
 - Designed interactive dashboards in Looker Studio for partners and optimized SQL queries, reducing AWS costs by 10%.
 - Developed and applied machine learning algorithms, including lookalike modeling, community detection, topic modeling, and survival analysis.
- 2020 – 2024 **Data Science Instructor, Master Data Science for Economics and Business Strasbourg**
- Taught Advanced Programming in Python and SQL/NoSQL for Master's students in Data Science.
- Jun-Aug 2017 **Data Analyst, CPAM Bas-Rhin Strasbourg**
- Used R for data analysis, predictive modeling, and time series analysis. Collaborated with the statistical department and worked with big data.

Education

- 2019 – 2023 **Ph.D. in Economics, Strasbourg**, Thesis: "Understanding Scientific Collaboration and Mobility: A Creativity Perspective"
- Advisors: Patrick Llerenna and Stefano Bianchini
- 2016 – 2018 **Master's in Statistics and Econometrics, Strasbourg**, Thesis: "Benchmark of Machine Learning Classifiers Using Statistical Tests"
- Advisor: Bertrand Koebel
- 2013 – 2016 **Bachelor's in Economics and Management, Strasbourg**, Option: Quantitative Economics

Research and Scientific Activities

Working Papers

- "Unpacking Scientific Creativity: A Team Composition Perspective" with Pierre Pelletier (Submitted in JEBO)
- "*Novelpy*: A *Python* Package To Measure Novelty And Disruption Of Bibliometric And Patent Data " with Pierre Pelletier
- "On The Global Health Science Response To COVID-19" with Moritz Muller, Pierre Pelletier, Stefano Bianchini
- "The evolution of Basic Income research, a bibliometrical approach" with Eva Jacob

Publications

- "The Private Sector Is Hoarding AI Researchers" with Roman Jurowetzki, Daniel S. Hain, Stefano Bianchini (2025 AI & Society: Knowledge, Culture and Communication)

Referee Activity

Reviewer For: Structural Change and Economic Dynamics; Economics of Innovation and New Technology

Conferences and Workshops

- ICube Data Science and AI Workshop, Strasbourg 2023
- DRUID Academy, Aalborg 2023
- Economics of Innovation, AI & Data Science Applications workshop , Copenhagen 2022
- 5th BETA workshop in Economics of Science and Innovation, Strasbourg 2022
- KID : Summerschool Knowledge Dynamics, Industry Evolution, Economic Development, Nice 2021

Skills

Computer Skills/Modeling

- Proficient in Python and R/RStudio, SQL/NoSQL, and basic knowledge of SAS, VBA, Javascript, HTML, CSS, and Power BI.
- Expertise in machine learning (supervised, unsupervised, reinforcement learning), deep learning, natural language processing, data visualization, survival analysis, panel data analysis, and temporal series.

Languages

- French: Native
- English: Professional proficiency (CLES2 certificate)
- German: Basic proficiency
